

About Bictory Finance.

We are a new, remote-based startup with an average collective experience of over 10 years in the Cryptospace.

Bictory is utilizing Blockchain Technology to develop safe, robust and interoperable financial applications for the DeFi ecosystem.

Our Products

01. Custodial Exchange (CEX).

Bictory CEX is developed using modern technology and the most stable paradigms in the crypto space currently. Safely store, and perform Spot trades over a wide range of cryptocurrencies and trade faster at very low fees.

02. Decentralized Exchange (DEX).

Bictory DEX is a decentralized trading protocol, built on the Concordium Network to enable traders, crypto enthusiasts, developers and liquidity providers exchange crypto assets in a decentralized, permissionless way.

03. Concordium Project

The online content portal on Concordium. Get quick insights into new/existing projects on Concordium as well as browse through engaging and educative materials on some of the broadest subjects in crypto.

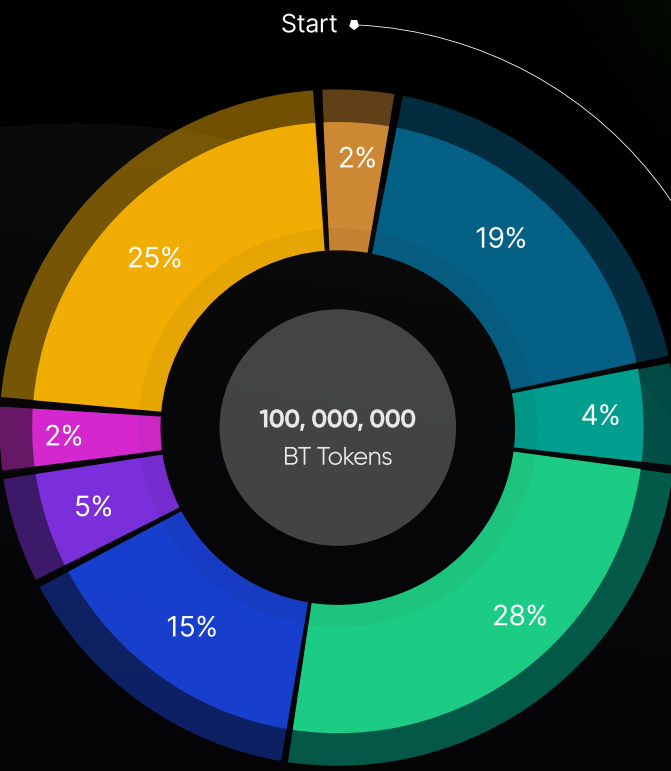

04. BictoryNFT

The first NFT collection on Concordium. BictoryNFT is a platform that provides an exclusive and curated NFT experience. Collectors enjoy exclusive access, discounts, special perks on the Bictory Ecosystem.
